[kushagra](#)

Professional Summary

Software Developer with strong foundation in Data Structures & Algorithms and experience in building responsive web applications using HTML, CSS, JavaScript, and React. Skilled in developing real-time systems and simulation-based projects with efficient logic and state management. Proficient in Java and problem solving, with hands-on experience in Git, UI/UX design, and modern frontend development. First author of an IEEE conference paper on machine learning-based disease detection.

Skills

Programming Languages: Java, JavaScript

Data Structures & Algorithms: Arrays, Recursion, Sorting, Searching

Frontend Development: HTML5, CSS3, React.js, Responsive Web Design

Database: MySQL, Firebase

Tools & Technologies: Git, GitHub, Visual Studio Code

UI/UX Design: Figma, Wireframing, Prototyping

AI & Modern Tools: Prompt Engineering

Soft Skills: Communication, Team Collaboration, Leadership, Problem Solving, Creativity. Aptitude & Logical Reasoning

Training & Experience

Bootcamp

Sharda University ([Link](#))

May 2025 - July 2025

Greater Noida, India

- Implemented pattern-based problems using Java to strengthen DSA and problem-solving skills
- Contributed to UI redesign using Figma, improving usability through structured layouts and user-centered design

PawfectLife Pet Store | Shopify

Feb 2026 - March 2026

Internshala ([Link](#))

Greater Noida, India

- Designed a Shopify e-commerce store with optimized layout and brand-focused UI
- Developed product pages and collections with clear navigation and improved user experience

Projects

ArtisanConnect | HTML, CSS, JAVASCRIPT, FIREBASE ([Link](#))

Aug 2025 - Sep 2025

- Built a responsive web platform connecting local artisans with customers using modern web technologies.
- Implemented Firebase Authentication and Firestore for secure user management and real-time database operations.

Smart Room Simulation System | React.js, JavaScript (ES6), CSS3 Animations ([Link](#))

March 2026 - April 2026

- Developed a Smart Room Simulation System using React and JavaScript that visually models real-time control of devices and human activities through a digital clock interface.
- Applied DSA algorithms including time interval scheduling and priority-based state logic to manage dynamic behavior and simulate real-world actions with event-driven updates and smooth UI animations.

Research & Publications

Bhadauria, K. S., Naik, A., Kumar, A., Tiwari, S., Kalicharan, & Raj, A. (2026). ([Link](#))

Oct 2025 - Feb 2026

Machine learning-based early detection framework for Alzheimer's disease.

IEEE International Conference (IC3ECSBHI), Greater Noida, India - **First Author**

Certifications

Udemy ([Link](#))

May 2024 - July 2024

Learn Complete Front-End Web Development Course

Education

SHARDA University

Aug 2023-May 2027

Bachelor of Technology in Computer Science, Greater Noida, India
